# Belemnitida

From Wikipedia, the free encyclopedia

*"Belemnite" redirects here. For the genus, see [Belemnites \(genus\)](#).*

**Belemnitida** (or the **belemnite**) is an [extinct order](#) of [squid-like cephalopods](#) that existed from the [Late Triassic](#) to [Late Cretaceous](#). Unlike squid, belemnites had an internal skeleton that made up the cone. The parts are, from the arms-most to the tip: the tongue-shaped pro-ostracum, the conical [phragmocone](#), and the pointy guard. The [calcaritic](#) guard is the most common belemnite remain. Belemnites, in life, are thought to have had 10 hooked arms and a pair of fins on the guard. The [chitinous](#) hooks were usually no bigger than 5 mm (0.20 in), though a belemnite could have had between 100 and 800 hooks in total, using them to stab and hold onto prey.

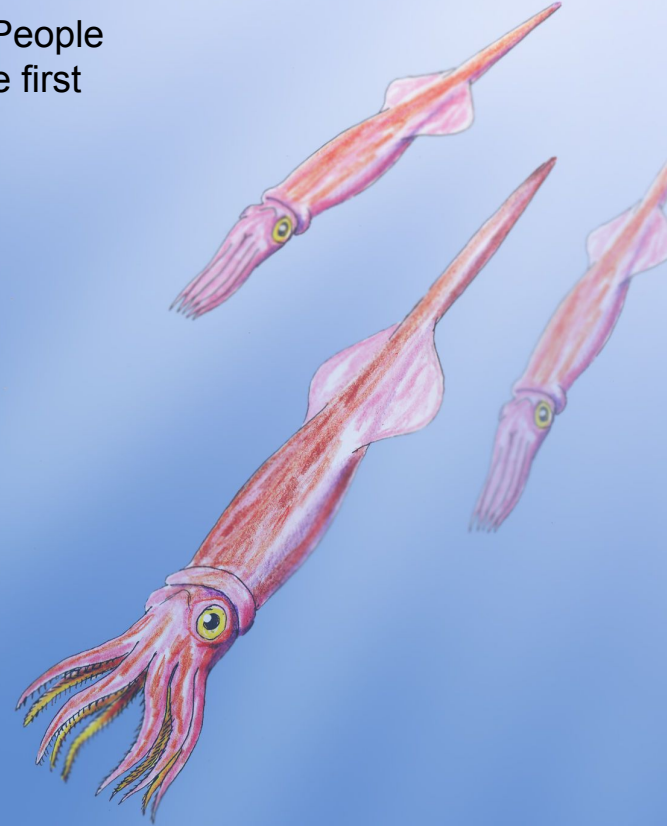

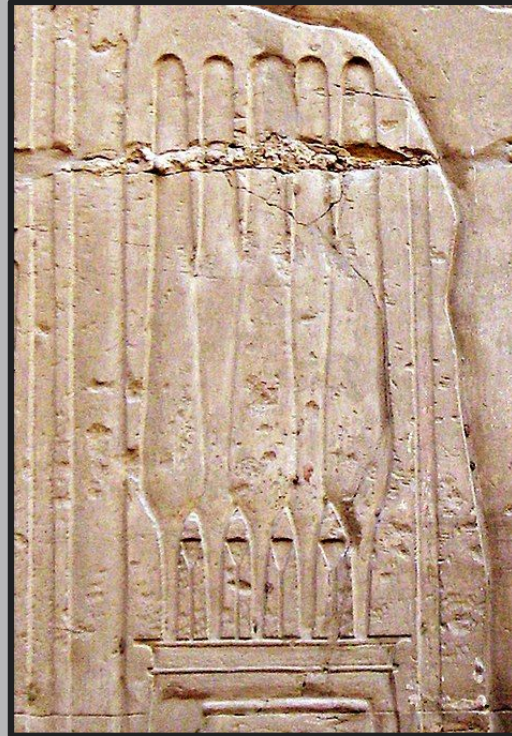

Belemnites were an important food source for many Mesozoic marine creatures, both the adults and the planktonic juveniles, and likely played an important role in restructuring marine ecosystems after the [Triassic–Jurassic extinction event](#). They may have laid between 100 and 1,000 eggs. Some species may have been adapted to speed and swam in the turbulent [open ocean](#), whereas others resided in the calmer [littoral zone](#) (nearshore) and fed off the seafloor. The largest belemnite known, *Megateuthis elliptica*, had guards of 60 to 70 cm (24 to 28 in).

# Egyptian God Min

Linked to Belemnite as late as 3100BC. People who worshipped Min were considered the first recorded heretics

# Opalized Belemnite Fossil

# Anguipede

The Greco Roman Hebrew Yahweh appropriated his anguipede attributes from his predecessor, also a Goddess, the Kurgan Tabiti or Api, who predated him on coins and medallions by several centuries.

Greek Name	Transliteration	Latin Spelling	Translation
Δρακαινα Σκυθια	Drakaina Skythia	Dracaena Scythia	Scythian She-Dragon

THE DRAKAINA SKYTHIA (Scythian Dracaena) was the first ruler of the land of Skythia. She was a woman from the waist up with the tail of a serpent in place of legs. When Herakles was travelling through her realm with the cattle of Geryon, she stole some of the herd and insisted the hero mate with her before she would return them. He did so and through her became the ancestor of a line of Skythian kings.

The Skythian Drakaina may have identified with the monster Ekhidna who was sometimes placed in the Skythian land of Arimoi. The Drakaina's story is undoubtedly a Greek translation of an old Skythian myth. Her serpentine form, the birthing of the first men, and the title "Hora" (Season) all suggest she was an indigenous earth-goddess.

# The Mixoparthenos

(half-maiden)

Argimpasa, the Scythian Goddess of Fertility, Warfare, and Magic. The Greeks identified her with Aphrodite Ourania

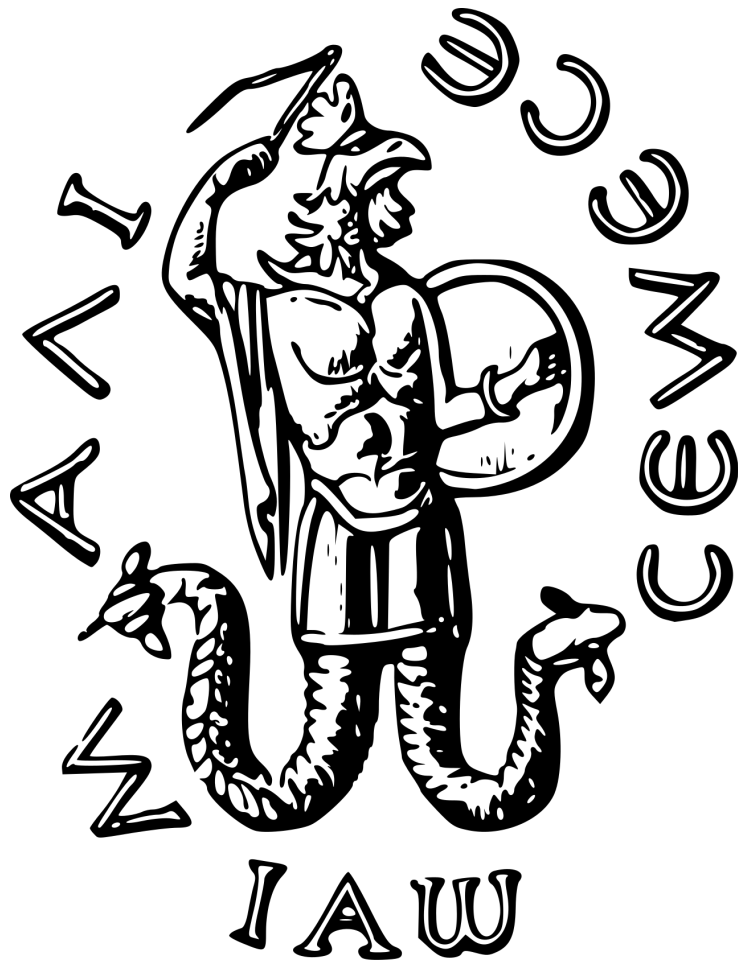

## Enter Abraxas

Abraxas The seven letters spelling its name may represent each of the seven classic planets. The word may be related to Abracadabra, although other explanations exist.

Abraxas was the birth of textual sigils and letters representing incarnations of God. Capacitors.

Amarah West inscription: 1304-1237 BC

"The Shashu of Yahweh's Land"

"This fragmentary hieroglyphic inscription contains one of the first mentions of Israel. "According to a recently published article by Manfred Görg, Peter van der Veen and Christoffer Theis, the name-ring on the right may indeed read "Israel," and they date it almost 200 years earlier than the reference to Israel on the Merneptah Stele." (Clyde Billington, Associates for Bible Research)

600 BC

200 BC Simon the Just

Ba'alei Shem - masters of the name

Exodus 3:14

The Hebrew name of God--YHWH--has not been uttered in public for over two thousand years. Some thought the lost pronunciation was "Jehovah" or "Yahweh." But Sameth traces the name to the late Bronze Age and argues that it was expressed Hu-Hi--Hebrew for "He-She." Among Jewish mystics, we learn, this has long been an open secret.

The name is transmitted only to the reserved—this word can also be translated as ‘the initiate’—who are not prone to anger; who are humble and God-fearing, and carry out the commandments of their Creator. And it is transmitted only over water. Before the master teaches it to his pupil, they must both immerse themselves and bathe in forty measures of flowing water, then put on white garments and fast on the day of instruction. Then both must stand up to their ankles in the water, and the master must say a prayer ending with the words: ‘The voice of God is over the waters! Praised be Thou, O Lord, who revealest Thy secret to those who fear Thee, He who knoweth the mysteries.’ Then both must turn their eyes to the water and recite verses from the Psalms, praising God over the waters.<sup>191</sup>

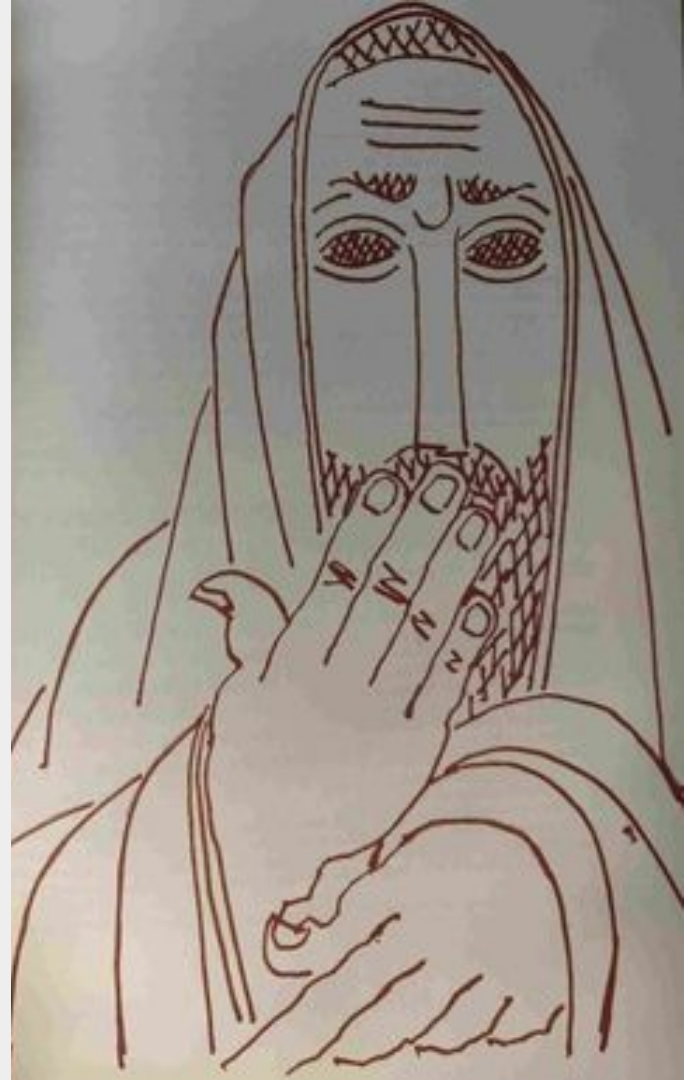

# God's name didn't die in a fire. It was smothered by a priesthood who thought the people weren't worthy of knowing his name.

300-200 BCE

*On a certain Yom Kippur Simeon came from the Holy of Holies in a sad mood, and when asked the reason, he replied that on every Yom Kippur a figure clothed in white had ushered him into the Holy of Holies and then had escorted him out. This time, however, the apparition had been clothed in black and had conducted him in, but had not led him out, a sign that this year was to be his last. He is said to have fallen ill soon after, for seven days, and died after Sukkot.*

Without the presence of Simeon, the Just, (Shimon HaTzaddik) among them, the Jewish people were no longer worthy of the miracles that had occurred during his lifetime. For this reason, following his death, the priests, refrained from blessing the Jewish people with the explicit name of God, the Tetragrammaton in the priestly blessing.

Tetragrammaton, Adonai, HaShem, Kyrios, Dominus, Jehovah, Yahweh
